

child passes the mandatory state test with help from certified ABC tutors. Inmancommunities, g the exact material your child will need to know on test day. We begin your child's tutoring program with a diagnostic evaluation, which mark your child's strengths and knowledge gaps which will help our tutors where they should focus to help your child succeed. Based on the diagnostic evaluation, we customize a learning program for your child focused on Our highly trained tutors then work one-to-one with your child to provide the personal attention he or she needs to not only pass the state test, but to develop long-term academic skills for success this year, next year and well into the future. With access to the teacher's undivided attention, your child will learn faster and more effectively than with a text book. We regularly give students practice exams to ensure they can tackle the questions with confidence.
