

Our flower shop is a well-established, successful flower business in Red Bank. Our success stems from a unique business model, including a network of suppliers, a tested distribution system and strong marketing strategies. Flowers is currently expanding through local business partnerships. Our vision is a network of local flower shops within starting with 4 large base stores (Monmouth, Ocean, Bergen, and Union County) and subsequently expanding to a greater number of stores within the state. Each store will have its own defined territory (typically at least a 10-15 mile radius), so that there will not be competition between shops in the network.
